To whom it may concern

December 2009

Subject: Hans Wrang

Mr. Hans Wrang has been working as a special consultant for our organization since June 2005, when he was asked to provide a database to assist our Visits Coordination team.

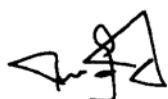

Over time, his assistance has been vital in the creation of several electronic tools, not only for the coordination of the customer and student groups visiting our installations, but also for the tracking of our financial operations and control of our inventories.

We have found Mr. Wrang to be an extremely pleasant person to work with, an excellent professional as well as discreet. Mr. Wrang has always provided prompt delivery of results, at the same time giving our staff the means to work in a simple way with a very sophisticated tool.

In the current economic environment, we unfortunately have seen our activities decrease, and it is due to these circumstances that we need to rescind the consultancy contract we had with Mr. Wrang.

We highly recommend Mr. Wrang to any future employer, and are at all times available to provide further references if so required.

Sincerely,

Richard L. Garstin
Manager
Malaga Operations
